

APPROVAL PLAN SYSTEM

A user-friendly online tool for generating acquisition proposals for your library customers

Benefits

- Generates new publication lists for all subjects areas
- Creates individual customer profiles and fully automatic or individually tailored Approval Plans
- Quick search by keyword on the basis of highly differentiated classifications and tags
- Sends search results directly to the library in the form of acquisition proposals

Features

- User interface branded with bookstore's own corporate design
- Tools for managing access rights, budgets and order reference administration
- Source data available from all standard systems; MARC 21 records
- Automatic cross-matching with OPAC holdings through Z39.50 interface

Tell us about your project. We'd love to help!

Industry expertise and software know-how for your business success

NEWBOOKS Solutions is one of the German publishing industry's leading software providers, developing solutions for all sectors of the publishing industry at a time of rapid transformation driven by digitization.
