

Journal Database

FOR PUBLISHERS

FOR BOOKSELLERS

FOR LIBRARIES

FOR SERVICE PROVIDERS

“ Metadata quality is an issue of high strategic priority for us. In this context, the way in which NEWBOOKS enriches metadata for books, journals and online databases as well as prepares them for consistent and unified search adds significant value to our customer information and thus a sales relevant added value to us as a company. ”

Eckart Schlapp
CEO
Hugendubel Fachinformationen

“ We are happy to list our publications in the NEWBOOKS Catalogues to be presented in numerous approval plans, eProcurement systems, new title alerts as well as comprehensive and enriched catalogue data exports for library suppliers and corporate booksellers worldwide. ”

Vanessa de Bueger
Int. Vertriebs- und Marketingleitung
Amsterdam University Press

Editorially maintained journal data

Apart from high quality catalogue data for academic and specialist books in print, NEWBOOKS Solutions offers editorially maintained catalogue metadata for journals. Our database covers all relevant academic and professional disciplines.

Features

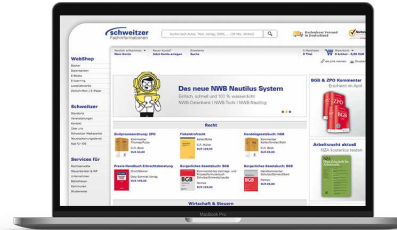

- Comprehensive journal database
- All relevant academic and professional disciplines
- Editorial maintained and validated catalogue data
- Classified according to the NEWBOOKS subject classification

The data feed is available in ONIX format or in other proprietary export formats for seamless integration into your own databases. Of course, we can run the databases also for you and provide you with search results via web service.

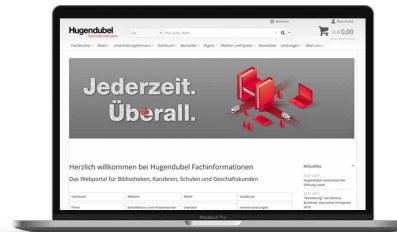

Additional Catalogues

Product data for online databases and books in print are available as well.
