

# Employee Shops

## FOR PUBLISHERS

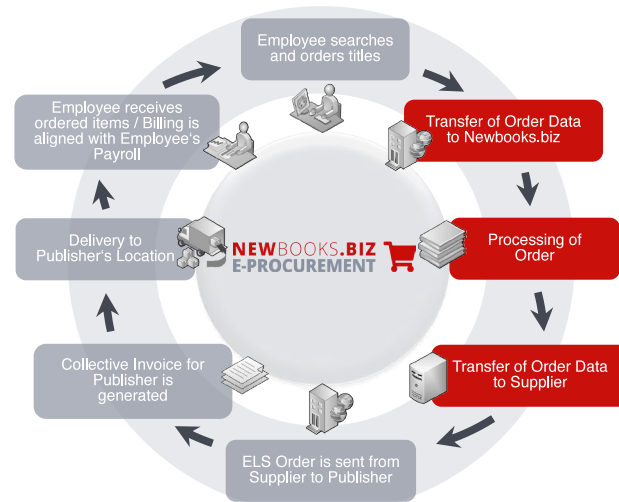

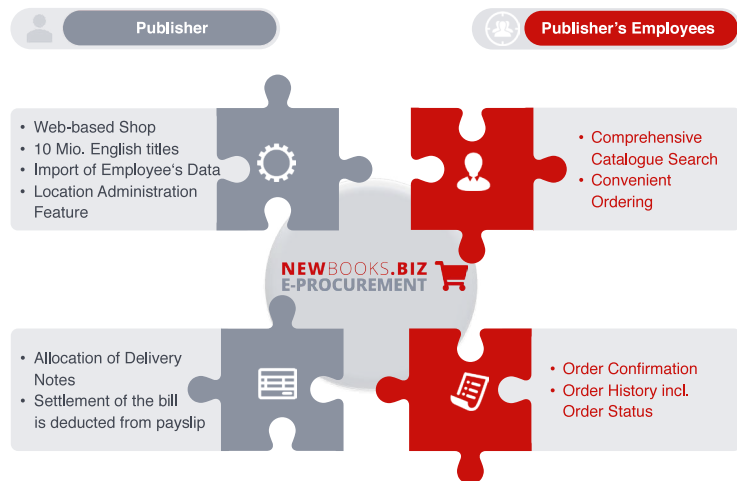

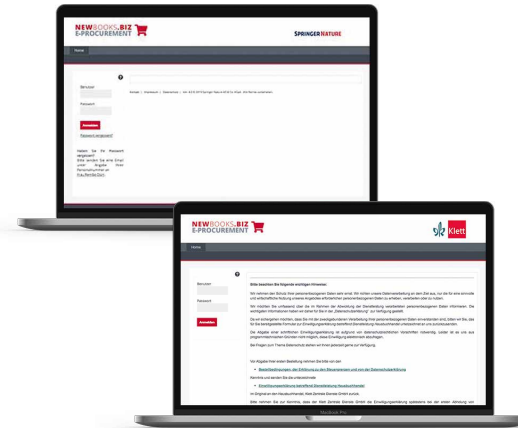

### Efficient ordering system and benefit program

The Employee Shop is an efficient and web-based ordering system for your members of staff. Publishers' employees use the shop to place their orders and automatically send it to the responsible processing department.

Orders will be assigned to each employee so that purchases can be settled easily via the payroll system. Publishers offer an attractive shop system and significantly lower process costs for in-house orders.

### Features

- Central Ordering System
- Increased Efficiency Gains
- Low staff costs
- Web-based System incl. Rights Management
- No Installation required
- Cost Control
- Budgets and Reports per Department/Cost Centre

“The web-based Newbooks.biz is a coherent system that offers many features: from employee's orders to billing and delivery. Since we settle the procurement of goods through Newbooks.biz - together with our payroll accounting system and a connection to our own database - processes become significantly more efficient. The employee shop is highly appreciated by our employees and very popular.”
